

Small Flush Swing Handle

Small Flush Swing Handle is used on smaller doors less than 800mm (31.5 inch) in height that have two-point latching. Handles are ergonomically designed to provide style and function in a low profile. They can be installed to rotate either clockwise or counterclockwise. The shape of the design provides aesthetic compatibility with the Flush Swing Handles. This handle includes keylocking provision, two keys, provision to add your logo.

FEATURES

Handle is used on smaller doors less than 800mm (31.5 inch) in height that have two-point latching

Handles are ergonomically designed to provide style and function in a low profile; the handle design provides aesthetic compatibility with the standard Flush Swing Handle, for applications using both handle designs

Can be installed to rotate either clockwise or counterclockwise

Key-locking design with two keys supplied; provision to add customer logo
