

Vertical Cable Manager for Cabinets, fits 2200x800mm, Black, Steel

Data Solutions

CATALOG NUMBER

PVCM228

The Vertical Cable Manager for 700- and 800-mm Wide Cabinets are used for routing and bundling cable inside 700- and 800-mm wide ProLine cabinets. This product has a variety of sizes that provides mounting flexibility. It mounts between the frame and rack angles so equipment can be centered or aligned on one side. It replaces reducing brackets that bridge space between cabinet and equipment and allows front-to-back adjustment of the rack angles. The latching hinged door on the front conceals wiring yet allows easy access while the movable plastic spools help manage cables.
