

We connect and protect

Welcome to the Future of Connection and Protection

Inventive Electrical Solutions in Asia Pacific

Commercial builders, energy companies, data center operators and industrial producers worldwide have long trusted nVent CADDY and ERICO products for their electrical connection and protection needs.

These market-leading brands are united under one company: nVent.

As nVent, established electrical brands join forces under a single mission: At nVent, we believe that safer systems ensure a more secure world. We connect and protect our customers with inventive electrical solutions.

The nVent name reflects the collective legacy of its trusted brands, which have helped set the global standard for innovative electrical components and systems for more than a century.

- Maximize your productivity. Minimize downtime
- Reduce operating costs
- Trust nVent to connect and protect your electrical infrastructure

CUSTOMERS ALWAYS COME FIRST

As an nVent customer, you'll receive exceptional product performance and customer service from all our core nVent CADDY and ERICO product brands.

In addition, our portfolio includes trusted brands such as nVent ILSCO, LENTON, GARDNER BENDER and KING INNOVATION. All channel, direct salespeople and distributors are always looking for improvements that enhance the customer experience. We will continue our commitment to put customers first.

TOTAL-VALUE ADDED OFFERING

Our comprehensive platform offers a wide range of resources and solutions designed to streamline operations and fuel growth. From logistical support to cutting-edge technology solutions, nVent provides a centralized destination for maximum efficiency and simplicity. Explore how our integrated approach can optimize productivity and implement innovation solutions for amplified output.

NVENT BUSINESS SEGMENTS AND BRANDS

nVent is a **\$3 billion** company with nearly **10,000+ employees** worldwide. We operate two business segments, each boasting brands that are among the most established in the electrical industry.

About nVent Electrical Connections

An electrical system is only as secure as the components used to fix, fasten and protect cable and wire systems. Those who design and install electrical systems rely on nVent for industry-proven, globally compliant fastening and facility electrical protection systems.

In addition to our superior technical performance, nVent's electrical and fastening solutions are comprised of superior engineered products for niche electrical, mechanical and concrete applications.

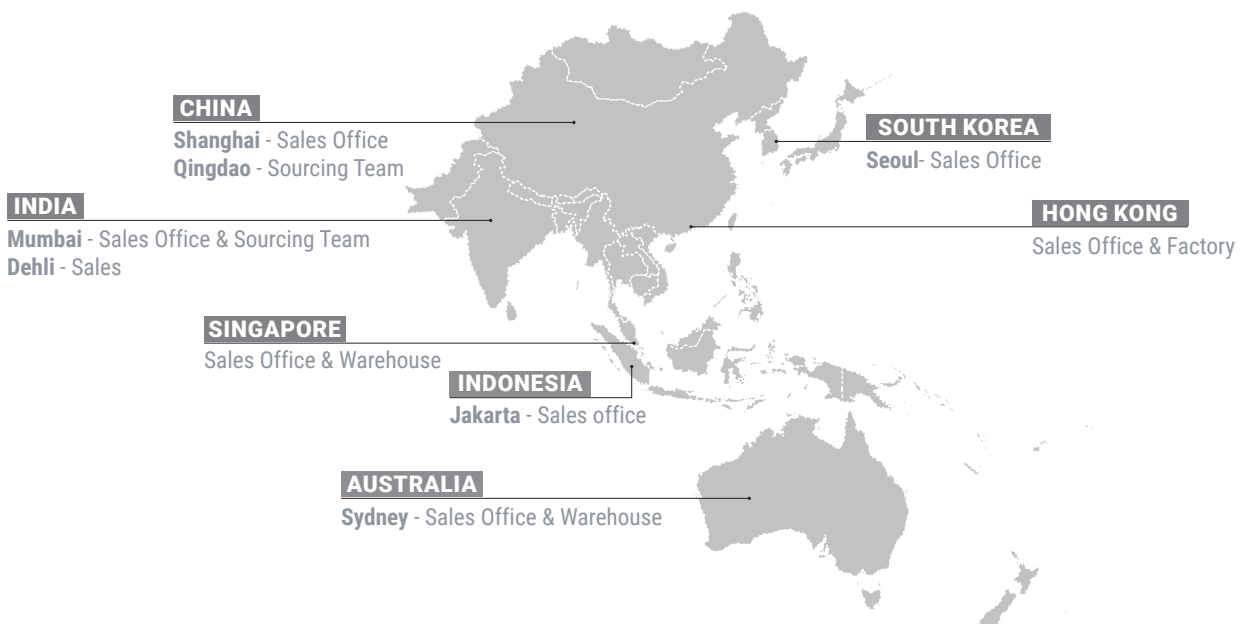

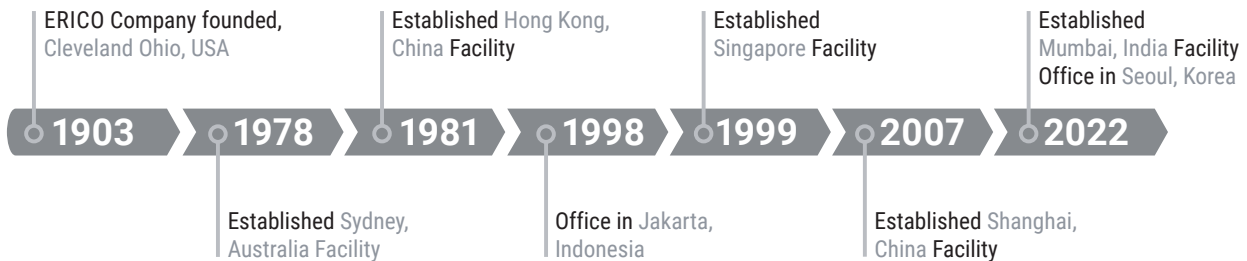

nVent ERICO provides comprehensive solutions for lightning protection, surge protection and grounding systems.

The nVent CADDY offers fixing, fastening and support products for electrical installation, seismic and fire protection, data communications and heating, ventilating and air conditioning systems.

nVent ERIFLEX delivers low voltage power distribution solutions that reduce total installed cost and increase design flexibility. We also offer nVent ILSCO solutions for electrical power connections.

nVent GARDNER BENDER supplies high-quality professional electrical tools and equipment tailored for contractors. And nVent KING INNOVATION specializes in connections and equipment for irrigation industry.
