

nVent CADDY Heavy Duty Telescoping Bracket

The nVent CADDY Heavy Duty Telescoping Bracket provides ultimate stud-wall flexibility, saving time on the job. This versatile box mounting system with base frame telescopes to the appropriate stud distance to allow for easy adaptation on any job site.

FEATURES

- Improved design eliminates the need to measure, allowing installation to occur 18 in from the floor to meet ADA requirements
- Innovative mounting tab allows bracket to be fastened and rotated into place reducing install time
- Boxes can be added or removed without detaching bracket from studs
- Compatible with nVent CADDY Heavy Duty Telescoping Bracket Reinforcement Rail
- Attach boxes quickly and easily with snap-on box mounting plates (sold separately)
- Box mounting plates can be securely snapped in any position along fully extended bracket
- Rigid design eliminates need for far-side support
- Ready to use out of the box, saving installation time and labor
- Works with wood or metal studs

Material: Steel
Finish: Pregalvanized
