

# Hinge Support, UHS

A full cover plate with these hinges mounted can be fitted within the enclosure. Displays and indicators can be mounted while covering other components, and preventing unauthorized access.

??

**Description:** To be used with a UFCP closed cover plate if a hinged inner door is required.

**Delivery:** 2 pieces with mounting accessories.

**Additional information:** Not compatible with reversible mounting position of UFCP.

**Hinges are to be mounted onto the plain full cover plate within compact polyester wall mounted enclosures**

**The hinges convert the plain full cover plate, UFCP into an inner door creating an additional level to mount components**

**Access to the components mounted on the mounting plate can be restricted allowing unauthorised personnel access to the control equipment mounted on the cover only**
